TREX® FENCING

Changing the Way the World Lives Outdoors

From the beginning, Trex has kept a finger on the pulse of exciting trends without forgetting traditional consumer values. With fencing, form meets function, giving communities unmatched appeal while providing fencing they can count on.

FENCING WITH STYLE

**THE FUNCTIONAL
ASPECTS OF PRIVACY
FENCING COMBINED WITH
UNDENIABLE ELEGANCE**

With incredible product benefits and design, Trex Fencing is securing outdoor living with style.

PRIVACY REDEFINED

Who says privacy fences need to look utilitarian? With Trex, form and function meet for a beautiful design that also protects your backyard spaces.

THE UNIQUE BENEFITS OF A TREX FENCE

STYLE

- » 3 rich, natural colors
- » Neighbor-friendly, board-on-board design
- » Same look both sides
- » Adaptable for slopes
- » Heights up to 12 feet tall
- » Customizable for various applications

STRENGTH

- » 25-year residential / 10-year commercial warranties
- » Won't rot, split, splinter, or get damaged by termites
- » Withstands hurricane-force winds

SERENITY

- » Completely private interlocking pickets
- » Never needs painting or staining
- » Installs quickly and easily

ALWAYS GREEN

THE UNIQUE DESIGN OF A TREX FENCE

A system that provides strength and privacy

Customizable for height and width

Strong universal posts

Board-on-board design for the same look on both sides

TREX FENCE COLORS

- » Fades from dark tan to light tan.
- » Popular on properties with earth tone themes.
- » Resembles a natural stain on a wood fence.

- » Fades from taupe-grey to light grey.
- » Popular in combination with white or black accents.
- » Complements brick or masonry, and modern urban design.

- » Fades very little from its original chocolate brown color.
- » Popular as a contrast to lighter colors.
- » Performs better than other dark colored materials.

THE WEATHERING PROCESS. As sunlight interacts with plastic, it will cause the surface to lighten. Trex compensates for this natural phenomenon by over-pigmenting its material during production. This allows the composite to weather to a lighter value over a short period of time. This is a limited transition. Trex will retain color throughout its life.

THE TREX FENCE UPGRADE

Combining the Best Attributes of Privacy Fencing into a Single System

Trex combines the best of privacy fencing attributes to become the perfect upgrade for discerning customers:

- » **UPGRADE FROM WOOD:** The natural look of wood without the maintenance.
- » **UPGRADE FROM VINYL:** The low-maintenance benefit with superior durability.
- » **UPGRADE FROM MASONRY:** Sturdiness with better adaptability for terrain changes.
- » **UPGRADE FROM OTHER MATERIALS:** A tried-and-true wood composite manufactured in the United States with a history as long as its warranty period.

BEFORE AND AFTER

What a Difference!

Before

After

Before

After

THE TREX UPGRADE

Few property improvements have a visual impact like a fence upgrade. Trex fence has significant curb appeal. Whether inspiring potential new residents or pleasing current community homeowners, impress them with Trex.

STRIKING & STRONG

Replace **wood** or **metal** posts with versatile **Trex composite posts**. Trex offers higher durability, longevity, and a distinct look to add interest to traditional fencing.

THE UNIVERSAL TREX FENCE POST

Length: 8', 9', 12'

Trex posts are universal (no routing) and can be cut like wood. Brackets for wood or ornamental fence will adhere in the thick, dense material.

Sturdy, hollow Trex posts are perfect for wall toppers

GET CREATIVE WITH TREX FENCING

Adapt Trex components or combine them with other materials to create amazing designs!
